

Microboards CopyWriter Live for \$699

Record in real time from virtually any audio or video source.

Recording your audio program to CD has never been this easy. Just plug in a mic, video, camera, VCR, mixing board, or any other audio or video source, and record to CD-R in real time.

The CopyWriter Live has two 12x CD-R drives, so if your program is over 74 minutes long, you can record without fear — the system automatically and seamlessly spans to the next CD with no gap. The dual drives also allow this flexible unit to operate as a one-to-one CD-R duplicator. You can even use your CopyWriter Live as a playback device, or take discs made in the unit and play them back on another CD or DVD player.

Advanced Features

- Standalone 12x CD Duplication with automatic format detection.
- Record and Pause to create multiple tracks for playback.
- Black set-top configuration with 2U rackmount kit included.
- Video CD discs created play back in most current DVD players.
- Audio CD discs created play back in almost any CD player.
- Play back Video CD discs and Audio discs on PC or Mac
- Spanning - CopyWriter Live jumps to the second disc when the first one becomes full!
- One-year warranty and free lifetime technical support.
